

LHAKPA TENJI SHERPA

Full-Stack Developer | Building clean, scalable web applications

Email: lhakpaxerpa10@gmail.com | Phone: +977 9867983766 | Location: Gokarneshor-9, Kathmandu

GitHub: github.com/Lhakpa56

SUMMARY

Full-stack developer focused on building clean, scalable web applications with modern technologies. Comfortable across the entire stack — from responsive frontend interfaces to reliable backend systems — turning ideas into practical digital products. Currently deepening Python backend skills with Django.

CORE STRENGTHS

- Rapid MVP development and iterative prototyping under tight deadlines
- Clean, maintainable code with a focus on scalability and UX
- Cross-stack collaboration — bridging frontend and backend work
- Fast learner — actively strengthening Python and Django skills

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, Responsive Design, React

Backend: Python, Django, REST APIs

Databases & DevOps: PostgreSQL / SQL, Git, Basic Deployment

Other: UI/Graphic Design, Marketing & Product Collateral

SELECTED PROJECTS

Ecommerce Starter-Kit

Full-stack developer — built the responsive frontend, integrated backend APIs and the checkout/payment flow for a starter e-commerce storefront with product listing, cart, and checkout.

Tech: React · Python/Django · PostgreSQL

Link: <https://github.com/Lhakpa56/ecommerce-starter-kit>

SaaS Application

Frontend & integration — implemented dashboards, forms, and API integration for an MVP SaaS admin UI with user management and billing-ready flows.

Tech: React · Django/API

Link: <https://github.com/Lhakpa56/saas-application>
